# Bachelor of Science Elementary Education 2+2

Two higher education institutions speed your way to a bachelor's degree in elementary education and a rewarding career.

### Accredited, Convenient, Affordable

2+2 teams two higher education institutions, providing easy transfer of credits.

Metropolitan Community College's (MCC) five campuses cover the Kansas City area, and Missouri Western State University (MWSU) offers courses online and in Kansas City's Northland. The program and the colleges are fully accredited.

Students participate in internships in teaching and classroom projects in elementary schools in Kansas City Northland school districts.

Attend one of the Metropolitan Community College campuses and earn an associate's degree (AA) or an associate of arts in teaching (AAT) degree in two years. Transfer to Missouri Western State University and earn a bachelor's degree in elementary education in as little as two years.

### Step 1: Metropolitan Community College

The first two years at MCC give you a smooth transition from high school, thanks to small personal classes, and class times and days that conveniently meet your schedule, including online courses.

### Step 2: Missouri Western State University

You'll enroll as a junior at MWSU where you can earn a bachelor's degree in two additional years through online courses and courses in the Northland. A cohort experience, distinguished faculty, affordable tuition, and convenient accommodations complete an outstanding higher education experience.
